

Elements About Me Project

Due Date: _____

Objective: Create a **word** using elements that describes you.

On a piece of computer paper, complete a write up that includes the following:

1. Element word at the top (make it stand out)
2. Under your element word, list the correctly spelled word.
3. A brief description of why that word describes you (complete sentence)
4. List each element in your word separately
5. For each element , write the full element name out and one fact about the element
6. Choose a fact that you can relate to yourself. State why it relates to you.
7. Decorate your paper using color & pictures!
8. 3-element word minimum. A 3-element word will receive no higher than a C, a 4-element word will receive no higher than a B. 5 elements or more are required for an A project.

Here is a short example to give you an idea of what to do. The more creative the more credit!

TeACHer
(Teacher)

I am a teacher

Te - Tellurium Is a gray metal. If you are exposed to it you get garlic breath. I love Italian food.

Ac - Actinium. Is dangerously radioactive. I am very dangerous when driving because of how easily I get road-rage.

H - Hydrogen - Is light and explosive. My personality is very light and approachable, but I can explode when my patience runs out.

Er - Erbium - Stable metal. For the most part, I am pretty laid-back and relaxed.

Criteria	Points Available	Points Earned
Element Word is at the top of paper.	10	
Correctly spelled word is underneath Element Word	5	
A complete sentence explaining why the word describes you.	10	
Each element in word is listed separately with the element name & a fact about the element. (5pts per element)	25	
For each element there is an explanation of how the fact relates to you. (5 pts per element)	25	
Paper is decorated using color & pictures	10	
Grammar/Spelling (1pt per error up to 5 pts)	5
